## 4.1: Introduction to Publisher

The screenshot displays the Scholar Publisher interface. At the top, there is a navigation bar with icons for Notifications, Messages (1), Library, and a user profile for William Cope. Below this is a secondary navigation bar with icons for Community, Creator, Publisher, Analytics, and Bookstore, along with a search bar for publishers. The main content area is divided into two panels. The left panel, titled 'EPS 431 SP16', contains a 'Publisher Directory' section with options to search projects, works, and active projects. A table of active projects is shown below, with columns for Name, Phase, Start, and Deadline. The right panel, titled 'Publishers', shows a list of publishers with a 'New' button and a 'More/Less' link.

**Filter:** All Projects

| Name                                  | Phase    | Start        | Deadline     |
|---------------------------------------|----------|--------------|--------------|
| Educational Theory                    | Past due | Mar 15, 2016 | Apr 15, 2016 |
| Work 2A: Learning Practice Case Study | Started  | Apr 10, 2016 | May 5, 2016  |
| Work 2B: Learning Module Project      | Started  | Apr 10, 2016 | May 5, 2016  |

Create a New Project

**4.1.1:** Publisher allows an admin to manage projects in Creator. Projects typically go through the phases of draft, peer/admin/self-review, revision, and publication. When you select a publisher in the right-hand menu, you are brought to the left side of the screen to the Publisher Directory. Here you can:

- Search projects in this publisher.
- Search works and members in this publisher.
- View active and completed projects.
- Create a new project (see Tutorial 4.4).

**4.1.2:** When you open the Members area of each publisher, you will see a list of current members. When a publisher is synced with a community, this list will be the same as the community membership list, and it will only be possible to add new members by having them join the community.

**4.1.3:** In the Tools area, you will be able to create a publisher icon, rubrics (see Tutorial 4.3), and member surveys (Tutorials 5.5 and 5.6).
