Help Metric Weights and Targets

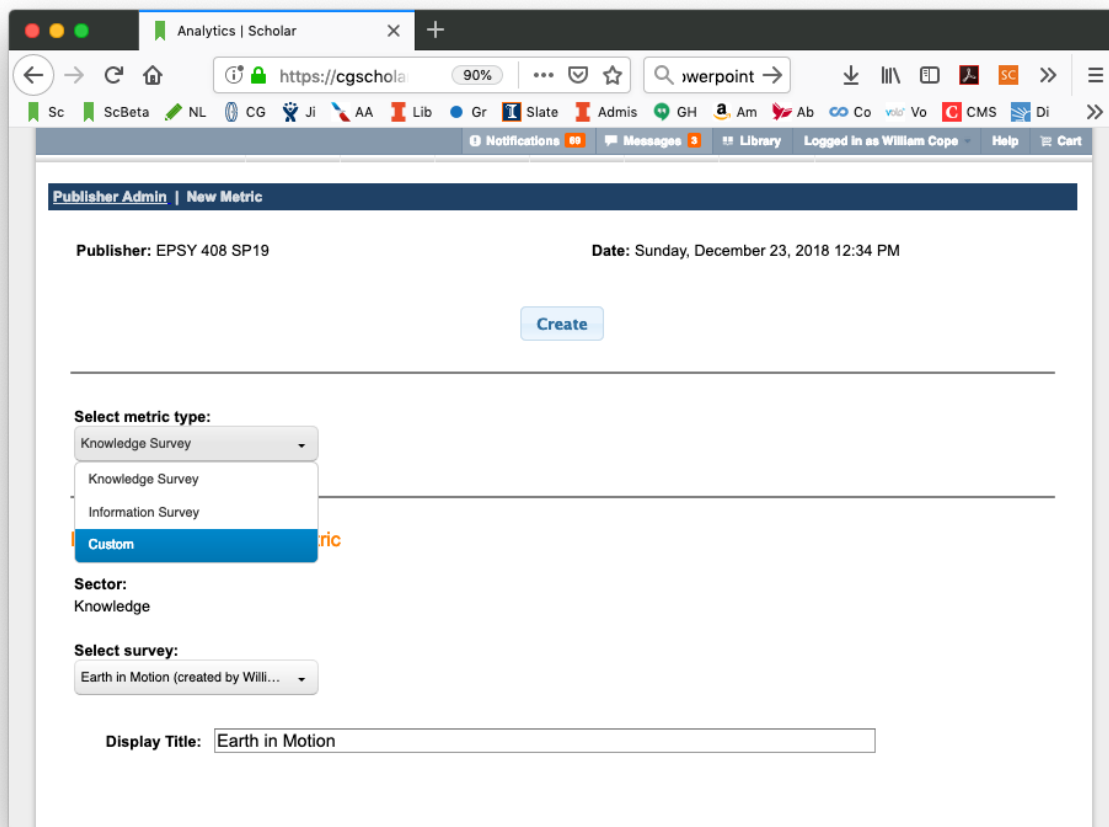

- Number of Views of Updates Authored**
Weight %: 100 Target Value: 3
Title Text: Average Number of Views of Your Updates
Legend Text: Community Interest in Updates
Help Text: Making thoughtful and substantial updates will encourage your peers to want to view the posts you author and can improve this score.
- Number of Reviews Authored**
Weight %: 100 Target Value: 4
Title Text: Number of Reviews Completed
Legend Text: Your Reviews
Help Text: It is important to provide peer feedback. Even reviewing your own work has many benefits. You can improve this score by completing more reviews.
- Average Number of Words Per Review Authored**
Weight %: 100 Target Value: 200
Title Text: Average Number of Words Per Reviews You Authored
Legend Text: Review Effort
Help Text: Producing more substantial review content can improve the score for this metric.
- Number of Comments Authored**
Weight %: 100 Target Value: 15
Title Text: Number of Comments You Have Posted
Legend Text: Engagement with Member Updates
Help Text: Posting more comments to your community can improve this score and greatly enhance the community experience for everyone.
- Average Number of Annotations on Peer Works**
Weight %: 100 Target Value: 15
Title Text: Average Number of Annotations on Peer Works
Legend Text: Annotation Effort
Help Text: Making annotations on peer works is an important form of feedback. Even annotating your own work has benefits. Improve this score by creating more annotations on works when making reviews.
- Average Rating Percentage Score from Peers for Reviews Authored**
Weight %: 100 Target Value: 80
Title Text: Average Rating Percentage Score from Peers for Your Reviews
Legend Text: Your Reviews Authored Rating
Help Text: Providing more substantial and constructive review feedback on peers' works can improve ratings from those peers.

A4.4.1 Help Metrics

What help measures do you expect to apply?

- Select check boxes to determine which metrics you wish to apply (whether or not this petal will appear in the aster plot).
- Select the weight you wish to assign to that metric (the width of that petal in the aster plot).
- Select a target value or learning objective (what it will take to color this petal to the circumference of the circle).
- Review and revise the standard text that appears in the petal mouseovers and the color-coded legend on the Analytics landing page.
- Add a custom help metric if you wish.

A4.4.2 Adding an Information Survey

- Select the [New Metric] option in the Admin Settings area.
- Select the Information Survey Option
- Locate the Survey among those you have created and that have been shared with you.
